Coalition for Smart Responses to Student Behavior

The Honorable Robert DeLeo, Speaker of the House
The Honorable Claire Cronin, Chair of the House Judiciary Committee
The Honorable Aaron Michlewitz, Chair of the House Ways and Means Committee
The Honorable Carlos González, Chair of the Black and Latino Legislative Caucus

RE: Testimony on School Policing and S. 2820

Dear Speaker DeLeo, Chair Cronin, Chair Michlewitz, Chair González, and Members of the House’s Judiciary Committee, Ways and Means Committee, and Black and Latino Legislative Caucus:

We urge the House to address school policing in its police accountability bill. Specifically, we seek your leadership in securing:

1. An end to police placement in schools, and

Our first priority is removing police from schools. A simple change can do so and keep schools safe. The definition of a “school resource officer” (SRO) in G.L. c. 71 § 37P(a) can be amended to include: A school resource officer shall not be located on school grounds but at the local police station and shall be charged with serving as the primary responder to calls from public schools.

In light of your upcoming hearing on the Senate’s Reform, Shift + Build Act (S. 2820), we also write to identify the aspects of the Senate bill we most strongly support. They are:

- **Section 50 (with correction below):** Lets school committees decide, by annual public vote, whether to assign police to schools. Requires superintendents to annually share data on the costs of school policing, the budget for mental and emotional health support, and school-based arrests and referrals with the public, school committee, and the department of education. We recommend an additional correction: the words "subject to annual approval by public vote of the relevant school committee" were stricken inadvertently and should be re-inserted after the words "agricultural school" in line 1122 so that it properly mirrors the same in lines 1124-5.
- **Section 49:** Prohibits information-sharing from school staff and school police to the Boston Regional Intelligence Center and other gang databases.

We also wish to note our support for two sections in S.2820 that increase training for police in engaging youth and students, but we must be clear that any training must not come out of school budgets and **training alone is deeply insufficient:**

- **Section 5 of S.2820:** Requires specific training for SROs to be developed in consultation with experts, and to be required before an officer can be assigned as an SRO.
- **Sections 4 (l. 215-217) & 73:** Requires police training on developmentally appropriate de-escalation and disengagement tactics and alternatives to the use of force for minor children.

Here’s why: **School-based police mean school-based arrests, too often for a school discipline violation.**¹
A first arrest doubles the odds a student drops out.² Massachusetts’ Black and Latino students are far more likely than their white peers to be arrested at school, especially for school discipline

---

matters.\(^3\) There is significant misunderstanding between Massachusetts’ police officers and school administrators on the role of police in schools.\(^4\)

Placing police in schools is expensive, especially during budget shortfalls when students may not even be in school buildings. Meanwhile, our state’s ratio of students to counselors, 304:1, fails to meet the nationally recommended ratio (250:1).\(^5\)

Schools and police are not complying with the reforms of 2018. The Massachusetts Juvenile Justice Policy and Data Board reports that many cities did not adopt the policing agreements required by the Criminal Justice Reform Act (CJRA).\(^6\) Fewer still report the data that the law requires. Only 31 of 289 school districts reported any arrests. Springfield, Worcester, and Lowell reported zero, along with 48 other large districts.

Parents, students, educators, and communities need a say in deciding what police do in schools. We ask for your leadership in securing that say.

Sincerely,

The Coalition for Smart Responses to Student Behavior
